Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Claims 14-20 are objected to because of the following informalities: In line 3, it appears "one of end sections" should more appropriately be ---one end section---. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 11, 12 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Hoyler (German patent 1,028,896).

The patent to Hoyler discloses the invention as is claimed. Note figures 1 and 2 which show a wiper blade including a rubber wiper strip (1) having grooves in longitudinal sides thereof that receive a spring-elastic carrier in the form of springs (5). Two transverse ribs (6) are provided at each end of the wiper blade and join the springs (5). Each rib has a center section that extends a distance from the top strap surfaces of the springs (note cross section C-C and figure 2). A

Art Unit: 1744

distance between the two springs is less than a width of the bridge. Means of attachment (not numbered but clearly shown in figure 1) of one piece with the rib is provided to secure the wiper strip in the longitudinal direction.

With respect to claim 12, it appears the ribs (6), and thus the means of attachment, can be brought into the securing position after the wiper strip is positioned on the carrier.

Response to Arguments

Applicant's arguments with respect to claims 11, 12 and 14 have been considered but are moot in view of the new ground(s) of rejection. As set forth above, the patent to Hoyler discloses transverse ribs (6) that will act to both hold the springs (5) in the wiper strip and prevent, at least to some degree, longitudinal movement of the springs on the strip by means of the tongue that if of one piece with the rib and extends over the end of the strip.

Allowable Subject Matter

Claims 15-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
